## Tour de Big Bear 2015

A High-Altitude Cycling Adventure

On August 1st, Cycling Adventures Members joined 1,700 other enthusiasts to ride the Tour de Big Bear. For this Adventure we opened the team house on Thursday to give our riders a chance to come up early and acclimate to the thinner air. Nice thing about having a "home-base" is it's a great place to chill out before and a perfect spot for a celebration after the ride.

On ride day, some opted for 70 miles and 5,000 ft, and a sturdy few rode 100 miles with 8,000ft of climbing. Each route had challenging climbs and lung-busting altitude to manage. We had perfect weather, amazing scenery and incredible on course support. The SAGs at TDBB are unequaled, they feature, bacon, ribs, popsicles and even chocolate dipped marshmallows.

Tour de Big Bear 2016 is set for August 6th. Don't miss it.
